EDUCATION

Indian Institute of Information Technology, Nagpur

B.Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning)

Nagpur, India

Aug. 2024 – Present

EXPERIENCE

KPMG India

AI Consultant Intern — Government & Public Services

Mumbai, India

May 2026 – July 2026

- Consulted for the **Labour Department, Government of Maharashtra**, on AI strategy for a state-wide portal consolidation spanning inspections & CPI validation”.
- Architected and deployed a production IDP pipeline (Playwright, PaddleOCR, Ollama Qwen 2.5 7B, grounded web verification via Gemini + Openrouter) that verified **~1.5 lakh** MahaBOCW scholarship records, eliminating manual verification and shipped as a standalone Windows app for independent department use.

Web Developer Intern

The Consistent Academy

Remote

Dec. 2025 – Present

- Engineered and deployed a production-grade React, Firebase, and Cloudinary platform serving 150+ users, integrating Razorpay payment processing and Resend-based email communication.

PROJECTS

Icarus | React, PyTorch, XGBoost, YOLOv10, Python, NASA APIs

Mar. 2026

- icarus-solar.vercel.app
- Engineered a 3D-Globe space-weather dashboard integrating real-time NASA DONKI APIs with a YOLOv10 computer vision model to autonomously detect solar anomalies.
- Developed Bi-GRU neural networks for Kp-index forecasting and applied XGBoost with SMOTE to classify solar flares from highly imbalanced datasets.

D.R.I.F.T. | React, FastAPI, PyTorch, Mapbox GL, Deck.gl, GSAP, Python

Apr. 2026

- drift-mm.vercel.app
- Developed an autonomous pipeline to detect marine macroplastics at a sub-pixel scale using Sentinel-2 multispectral imagery and a dual-head U-Net architecture.
- Engineered a Lagrangian physics engine integrating real-time ocean currents and wind data to forecast 72-hour trajectories & display it on a web dashboard.

Parkify - Smart Parking | PHP, MySQL, Leaflet.js, Confetti.js, JavaScript, HTML/CSS

Mar. 2025

- parkify.great-site.net
- Designed a smart parking system to help users locate, reserve, & manage parking spots efficiently in real time.
- Implemented booking and management flows backed by a MySQL database with a modern, interactive UI.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java (Coursework), SQL, C/C++

Frameworks & Libraries: React, Tailwind, SciKit Learn, PyTorch, PaddleOCR, Playwright

Backend & Databases: Firebase, MySQL, Cloudinary

Tools: Git, Figma, Blender, Jira, Ollama

EXTRACURRICULAR ACHIEVEMENTS

- Awarded a **€1,000** grant scholarship by Associazione Diplomatici & Change the World Academy for **CWMUN New York 2026**.
- 1st Place**, Healthy Headspace Hackathon | **2nd Place**, AstroHack 2025
- 4th Place**, Krafon Game Development Hackathon — IIT Bombay E-Summit 2025
- 2× Winner, **Render Riot** (Nationwide 3D Animation Competition)
- 1st Place**, Infacto 4.0 (Nationwide Debate Competition); Multiple Best Delegate & High Commendation awards in MUNs
