EDUCATION

Indian Institute of Information Technology, Nagpur

B.Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning)

Nagpur, India

Aug. 2024 – Present

EXPERIENCE

KPMG India

AI Consultant Intern — Government & Public Services

Mumbai, India

May 2026 – July 2026

- Consulted for the Labor Department of the Government of Maharashtra to strategize the integration of Artificial Intelligence across critical public services.
- Streamlined operations for a state-wide integrated portal, directly optimizing Consumer Price Index (CPI) validation workflows and data management architectures.

Web Developer Intern

The Consistent Academy

Remote

Dec. 2025 – Present

- theconsistentacademy.in
- Engineered and deployed a production-grade React, Firebase, and Cloudinary platform serving 150+ users with optimized media upload performance.
- Integrated Razorpay for seamless payment processing and implemented robust email communication via Resend.

PROJECTS

Icarus | *React, PyTorch, XGBoost, YOLOv10, Python, NASA APIs*

Mar. 2026

- icarus-solar.vercel.app
- Engineered a 3D-Globe space-weather dashboard integrating real-time NASA DONKI APIs with a YOLOv10 computer vision model to autonomously detect solar anomalies.
- Developed Bi-GRU neural networks for Kp-index forecasting and applied XGBoost with SMOTE to classify solar flares from highly imbalanced datasets.

D.R.I.F.T. | *React, FastAPI, PyTorch, Mapbox GL, Deck.gl, GSAP, Python*

Apr. 2026

- drift-mm.vercel.app
- Developed an autonomous pipeline to detect marine macroplastics at a sub-pixel scale using Sentinel-2 multispectral imagery and a dual-head U-Net architecture.
- Engineered a Lagrangian physics engine integrating real-time ocean currents and wind data to forecast 72-hour trajectories & display it on a web dashboard.

Parkify - Smart Parking | *PHP, MySQL, Leaflet.js, Confetti.js, JavaScript, HTML/CSS*

Mar. 2025

- parkify.great-site.net
- Designed a smart parking system to help users locate, reserve, & manage parking spots efficiently in real time.
- Implemented booking and management flows backed by a MySQL database with a modern, interactive UI.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java (Coursework), SQL, C/C++

Frameworks & Libraries: React, Tailwind CSS, SciKit Learn, NumPy, Pandas, Matplotlib, Seaborn, PyTorch

Backend & Databases: Firebase, MySQL, Cloudinary

Tools: Git, Figma, Blender, Jira

EXTRACURRICULAR ACHIEVEMENTS

- Awarded a **€1,000** grant scholarship by Associazione Diplomatici & Change the World Academy for CWMUN New York 2026.
- **1st Place**, Healthy Headspace Hackathon | **2nd Place**, AstroHack 2025
- **4th Place**, Kraftron Game Development Hackathon — IIT Bombay E-Summit 2025
- 2× Winner, **Render Riot** (Nationwide 3D Animation Competition)
- **1st Place**, Infacto 4.0 (Nationwide Debate Competition); Multiple Best Delegate & High Commendation awards in MUNs
